Constella Intelligence provides our team round-the-clock access to the important data monitoring services we need to protect our clients from cyber-risk"

Adrian Taylor
ITC Secure CTO

Constella Intelligence Overview

Constella Intelligence offers digital risk protection and threat intelligence solutions that identify and mitigate risks outside of an organization's firewall - in the surface, deep and dark web.

Constella solutions offer a simple way to expand your cybersecurity portfolio. No matter where customers are in their Digital Risk journey, our powerful and integrated platform can be extended as their needs evolve - providing you with a clear path for upsell and cross sell opportunities.

Constella Partner Program

Partners are key to our succes. To support you, we designed a partner-first program that makes it simple, predictable and profitable to guide your customers on their Digital Risk journey.

Constella partners receive continuous support from our technical, sales, and marketing teams throughout the lifetime of their partnership.

KEY CUSTOMER BENEFITS

- **Reduce Costs:** Eliminate manual processes that consume limited staff resources.
- **Full Coverage:** Scale to monitor an entire organization, not just a select few execs, domains or locations.
- Accelerate Response: Dramatically speed up response time with fully automated monitoring and context-rich alerts.
- **Expert Support:** Reduce the need for inhouse expertise with applied best practices, recommendations, & integrated expert systems.
- Flexibility: Integrates with provisioning systems, technology stacks, and response workflows.
- **Attribution:** Expose the true identity and location of threat actors, activist networks & insiders.

Program Benefits

Grow Your Revenue

- Deal registration
- Competitive discounting
- Protected renewals
- Promotions & Incentives

Get Trained

- Free live trainings
- Partner demo program
- On demand resources
- Dedicated technical support

Marketing & Sales Resources

- Turnkey marketing campaigns
- Selling toolkit
- Regional events
- Executive briefings for prospects

Risk Intelligence to Drive Your Business

Comprehensive visibility to defend against threats like account takeover, executive impersonation, disinformation campaigns, fraud and insider threats that could lead to a ransomware attack.

Brand Protection

Continuous monitoring for public disinformation and harmful intent across social, surface, deep, dark web for potential threats and brand abuse.

Executive & Employee Protection

Detect impersonation profiles, doxxing and reputation attacks by monitoring social, deep and dark web for compromised credentials, PII and malicious activity directed against executives and employees.

Fraud Protection

Investigate suspicious activity to discover fraud and expose the true identity and location of threat actors, activist networks & insiders before damage occurs.

Geopolitical Protection

Detect shifts in public opinion, sociopolitical unrest or travel risk with real-time event and location-based monitoring.

Constella Dome Delivers

- **Automation and Scalability:** Monitor and protect any number of executives and employees, brands, or locations from threats.
- **Continuous Monitoring:** Detect & mitigate external digital threats over time before they can disrupt oparations.
- **Real-time Alerting & Response:** Block compromised credentials, initiate takedown of exposed data, identify threat actors.
- **Seamless Integration:** Accelerate your response time through integrations with onboarding, SOC response & ticketing systems.
- **Global Reach:** Monitor thousands of data sources and billions of data points to anticipate attacks against people, assets, or brands.
- Customizable Threat Models: Increase effectiveness of teams and processes by eliminating low-value noise and prioritizing high value alerts.

Drive Value

Help your customers build a Digital Risk Protection plan

Move from reactive to proactive security

Forecast safety risks and operational disruptions from diverse threat landscape

Integrates with SIEM | SOC | risk mgt | business continuity infrastructures for comprehensive visibility
