# World-Class Identity Protection and Identity Risk Intelligences

**Powered by AI and the World's Largest Breach Data Lake**

Constella Intelligence is a global leader in **Identity Risk Intelligence**, helping organizations worldwide strengthen identity posture, reduce operational risk, and proactively defend against identity-driven threats.

Backed by the world's largest breach and infostealer data lake, spanning over **one trillion attributes** across **125+ countries and 50+ languages**, Constella delivers unparalleled visibility into exposed credentials, impersonation risks, and infostealer infections across the surface, deep, and dark web.

Through scalable APIs, real-time alerting, and investigative tools, Constella enables organizations to detect identity threats earlier, accelerate incident response, and integrate identity intelligence across their security ecosystem.

## Digital Risk Protection Platforms

Defend your people, assets, and brand with automated protection.

- **Executive and Brand Protection (Hunter Plus):** Monitor and alert for risks to your executives, VIPs, physical assets, and corporate brand reputation.

- **OSINT Cybercrime Investigations (Hunter):** Connect the dots between anonymous threat actors and real-world identities using advanced pivoting and link analysis.

- **Threat Monitoring and Alerting:** Enhanced real-time situational awareness across your entire threat intelligence lifecycle.

## API / Data Integrations

Power your security stack with the world's most comprehensive identity data.

- **Identity Theft Monitoring:** Clear, accurate, and actionable alerts designed for Identity Theft Protection providers and Credit Services.

- **Identity Risk Intelligence:** Real-time identity risk scoring to strengthen authentication decisions and fraud detection models.

- **Identity Data Signals:** Raw threat intelligence and identity data available via API or cloud storage (Snowflake/AWS) for enrichment and modeling.
